

Thank you

By Pippa
Aged 12

Pippa was born in 2013 with Down's syndrome and has been visiting the hospice since she was five.

"When we visit the hospice we know we are somewhere safe and that it is enjoyable for Pippa. My husband and I love that we can all spend time together without having to leave Pippa completely. At home Pippa's brother Elliot plays a big role as a young carer. So, when we come to the hospice he can relax and be an older brother, and a child himself."
